Project idea with short description

Travel destination recommender - User responds to “survey” which identifies their travel preferences (over an assortment of categories such as food, safety, weather, etc.). The tool will consult the database of countries and their associated scores in each category, and recommend topN choices for the user.

- *Survey*: includes “rank these x items in order of importance”, “on a scale of 1 to y how important is _____”
- *Categories*: Food, Weather, Accommodations, Safety, Transportation, Language, Cost, Nightlife, Sites to see, Health, Popularity

Work breakdown

Ryan - Food, Sites to see, Language, Survey

Madhav - Hotels, Cost, Weather, Nightlife

Sean - Transportation, Safety, Health, Popularity
